WORKSHOP OVERHEAD GANTRY

After months of the installation process, our new 5 - Tonne overhead electric gantry became operational in November. The workshop was built with provisions for this major piece of equipment and has always been a dream for John. The use of this will eliminate labour time and also reduces the Occupational Health & Safety risks when removing engines etc. to overhaul. Its just another way we are assisting to provide a reliable and efficient service to you.

Christmas Trading Hours

Closed Public Holidays:

- 25th & 26th December
- 1st January

Our after hours breakdown service will be operational over the Christmas–New Years period.

Wishing all our of customers a very Merry Christmas & a happy, safe and prosperous New Year, in

Comments from the Manager

Its hard to believe that Christmas is upon us once again. Its certainly turned out to be one of those bumpy years, with the world economic situation making things very interesting. It has been very unpredictable and we have been working month to month, keeping in touch with a very strict budget not knowing what is around the corner. Luckily, however we have maintained a strong and healthy cliental which has kept us extremely busy throughout the whole of the year.

With an early but fairly positive harvest and with the fuel prices and the dollar slowly on the downfall makes next year promising for the industry.

Jenkin Racing Team has had a very positive start to the season, with Dylan finishing in the A-main every meeting this year. With a new crew member concentrating solely on the car set-up, has been very helpful.

On the behalf of my family and staff, I would like to wish you a very happy Christmas and safe & prosperous New Year.

John Jenkin

Direct Parts Line: (08) 8752 0078

Afterhours: 0417 860 749

(callout fee applies)

Your local stockist and repairers of hydraulic hoses.

Stocking Eaton/Duffield from 1/4" to 1" hydraulic hoses & fittings.

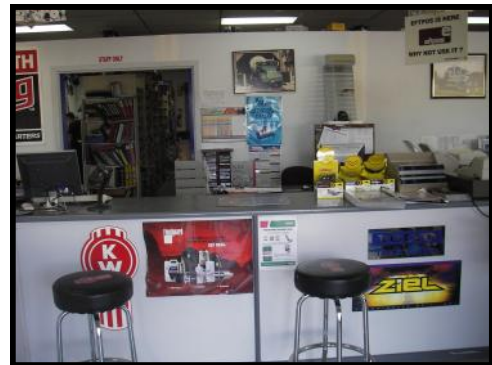

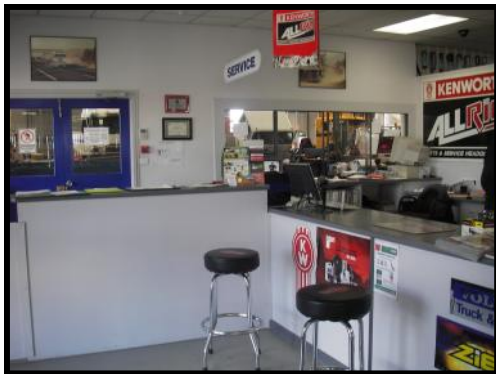

Office Renovations

As mentioned in the previous issue we were having some changes in the office. It all took place In October with a new look and layout.

The service department is now located to the left as you walk in the front door. We have installed a new service desk, which is where Shane now sits. The new set-up is to help police people entering the workshop

and to be closer to the workshop for assistance.

Spare parts is now located to the right as you walk in the front door. The parts managers office has been demolished and is now just a desk, where Lizzie (Service Clerk) now sits. The spare parts interpreters are now situated at the front desk to better assist you with your inquiries.

Bokara Station W-Model Restoration

In 1981 Gary Radford purchased 2 new W900's and Nick (son) then very young, was involved in washing & looking after them.

Gary purchased a similar speed truck in 2007 and Nick has overseen its restoration. We have spent many hours overhauling the entire vehicle, starting from replacing chassis rails thru to the final assembly.

This involved all different expertise within our workforce and was a great training aide. It was a very rewarding project for all staff to see from start to finish.

We wish Gary & Nick all the best.
