Your Auto Electrical Hub of the Tatiara

Our auto electrical department is growing, to better service your needs!

Renee Gericke, Aaron Schneider, Ben Stone

We now employ 3 auto electricians: Aaron—fully qualified, Renee—1st year apprentice & Ben—1st year apprentice (school based).

We are very proud to be giving young local people a chance at a career & to achieve their goals in their home town.

Our Auto Electrical area is fully equipped with the latest equipment, a Heavy Duty Durst Starter Motor & Alternator Test Benches. This equipment allows us to provide our customers with a cost effective service. We can carry out

accurate testing, which could mean the difference between the purchase of a new unit or repairing the original one.

We repair all automotive electrical & air conditioning systems. Whether it's on or off site repairs, we're here to help.

Stocking Super Charge & Kenworth Batteries, Lightforce lights & much more!

Phone John, Shane or Dylan for bookings or enquiries on (08) 8752 0076, or drop them a email (see page 4).

Comments from the Manager

Its hard to believe we are half way through the year already—Christmas will be here again before we know it!

Another financial year has been and gone, and I couldn't be happier with the way business is going, considering the economic downturn which is seeing a lot of businesses struggling. It hasn't come easy though and I would like to thank all of my staff for their hard work in keeping things moving—my Moto "never say no".

We have had a lot of exciting things happening and with a few things on the horizon.

Firstly, I would like to congratulate Dylan & Michelle on their marriage and I couldn't have been happier with Michelle's choice of wedding vehicles—4 sparkling Kenworth trucks, compliments of Clint Virgin, Peter Horne and the McCarthy family. The T900 experienced a bit of a make-over for the event and came up looking like it came off the production line!

We're also currently restoring a 1969 Kenworth Cabover (ex-Bailey), in readiness to take to the Kenworth Hall of Fame late August.

Congratulations to Reilly on his outstanding achievement in Brisbane. It is an honor to have representation at a competition of such a high level and we are very proud of his results.

We had an outstanding attendance to our Annual Awards Night, missing only 1 staff member out of 37. I would like to congratulate everyone on their awards, particularly to Narelle Schneider on her 10 year Service Award and Dion Morris on Employee of the Year, his work now recognised at Kenworth & is currently in the test phase.

The release of the new Kenworth Model range is due to appear at the start of 2011. The new models will include the Australian Design Rule 80/03, which will comply with Australia's next round of engine emission regulations for heavy vehicles.

John Jenkin

Bookings are essential!

When booking in, details of the vehicle will be required.

All Stockcrate's must have weigh dockets before being inspected.

Service

AD BLUE

What is AdBlue®?

In order to meet the environmental standards, manufacturers have chosen SCR (Selective Catalytic Reduction) technology to reduce nitrogen oxides. The SCR-equipped vehicles use urea, a liquid solution called AdBlue®.

AdBlue is a non-hazardous 32.5% solution of urea, a nitrogen compound in demineralised water specifically developed to treat exhaust gases.

\$1.20/litre
+ gst

AdBlue is stored in a small dedicated tank on your truck and is injected into the exhaust gases before passing through the SCR catalytic converter. This converter breaks the gases down into harmless natural water and nitrogen.

SCR (Selective Catalytic Reduction) technology significantly reduces nitrogen oxides (NOx) and particulate emissions, allowing SCR-equipped vehicles to comply with legislation.

Staff News

Staff Changes

In May we farewelled our workshop cleaner/gardner Jacinta Fisher. Her bright, bubbly personality will be surely missed around the workshop. Aiden Mullan will be filling Jac's shoes and he joined the team in June.

Matt Regnier & Aiden Mullan

Matt Regnier joined the workshop team in June, currently working in the service bay.

Training

Reilly Sanders & Thomas Crane—Kenworth steering systems & Intro into Kenworth Electrical systems, at Adelaide—April 12-14th.

Tyler Tomko—Paccar Parts Interpreter-level 1, at Melbourne—June 21-23rd.

Adam Keller & Aaron Schneider—Kenworth EBSS (Electronic Braking Safety System), at Adelaide—June 11th.

Aaron Schneider—Kenworth Intermediate Electrical systems—July 20-21st.

Congratulations to Shawn Lawson & Narelle Schneider on successfully completing their trade certificate—"Certificate III in Automotive Sale—Parts Interpreting", in March.

Annual Awards Night

On Friday 9th July most staff & partners gathered at the Bordertown Motel for our annual Awards night. Certificates were presented to staff who had attended course over the past year.

Service awards were presented to:

Narelle Schneider—10 Years

Steve Grellet—5 Years

Troy Taylor—5 Years

Nathan Bamford—5 Years

Congratulations to Dylan & Michelle Jenkin on their marriage - 17th April 2010.

Reilly sixth at Worldskills

Reilly Sanders travelled to Brisbane early May to compete in the National Worldskills competition, placing sixth overall!

Reilly aged 19 years old & in his 3rd year of his apprenticeship competed against the best heavy vehicle mechanics in the country, achieving an outstanding result of 6th. With only 6 points separating 1st–6th position, Reilly was the only apprentice while the other 11 competitors were qualified.

The competition was conducted at the Brisbane Entertainment Centre over 3 days. Reilly had 6 tasks to complete, these included: Engine diagnosis, rebuilding a gearbox, hydraulics, fault diagnosis, auto electrical work & a verbal component (due to equipment availability). Each task was allowed a time limit of 3 hours to complete.

Reilly will be able to challenge for the title again next year as he is still eligible. We are very proud of Reilly's achievement in this competition & wish him and our other apprentices good luck for next year.
