Comments from the Director

Over the past two months, we have seen some major progress on our southern workshop extension. We are now at a stage where the plumbing & electrical work can be started, airlines & overhead gantry installed, pits dug & the concrete laid. Completion is expected in early October.

The recovery trailer is also still in progress, but we are now at a point where it's nearly ready to paint, so hopefully this project will be in operation before the end of the year.

Last month Dylan & I travelled to Melbourne to attend a Cummins conference, which was held at the MCG. During the one and a half day session, Cummins provided us with an overview of some product issues, new products being released & training opportunities. We both got the opportunity to listen to Max Walker, who was their motivational speaker & had the pleasure of attending dinner with him.

We are in the progress of applying to be a Victorian Roadworthy Inspection Centre to enable us to carry out VIC Roadworthy Inspections on Victorian registered vehicles. Dylan & Brett recently attend a 4-day course in Melbourne to assist with the accreditation process. There are several other very stringent criteria which we need to meet, so hopefully this should be operational in the next couple of months.

Due to the close down of CMV Dismantlers in Adelaide, we were able to purchase several second hand gearboxes, diffs, drive shafts & older American model driveline parts which will be available now through our dealership.

We are currently getting out & about, visiting some customers on site to attend to and get a better feel for their needs. This occurs once a week, with a different zone targeted each visit. If you would like your business to be included in the outside visits, please contact our Spare Parts Department.

Congratulations to Cummins Mt Gambier on the opening of their new & modern site & also to the Barry Maney Group on the opening of their new Service Department. Both of these dealerships have given us inspiration for own expansions. We wish them both well.

On a sad note, in September we will farewell Paul & Kirstie Croser who will be relocating to Geelong to be closer to Kirstie's work. Paul has been a big part of our business, recently collecting his 15 year service award. He was also a big part of Jenkin Racing Team, which involved his whole family, so they will be missed by our family & will leave a big whole in our workshop. We wish them all well in their new venture.

Hopefully with the good rain we have been receiving, is a positive sign for the farming industry which impacts heavily on

our business so we can only hope that good season continues after a late start.

On a personal note, in a couple of weeks, Ann & I will be travelling to South Africa for a week, which is a trip that we won through a Kidney Foundation Raffle. Even though we are rather nervous about going, I think that it will be fantastic experience.

Also a couple of weeks ago, we welcomed our first ever exchange student from Germany. His name is David Teichmann & is attending Bordertown High School. He will be with us for the duration of his stay, being 12 months. Already he is fitting in very well with our family & our culture. We look forward to showing him around our district & showing him more of our country over the next year.

On the Jenkin Racing Team front, Dylan has recently made an announcement that he is taking a year off due to family & work commitments, which was quite a shock for us but respect his decision. We will make the most of his year off by re-grouping & preparing for the season after. We would like to thank all of our sponsors that supported us for the season that has ended & hope for their continued support in the 2013/2014 year.

TTT Annual Awards Night

Employees of the Year recipients
Rosalyn & Henry with directors
Dylan & Jaime.

5, 10 & 15 Years of Service:
Bob, Dion, Billy, Paul, Aaron
Reilly & Dylan

We held our Annual Awards Night on 14th July at the Bordertown Bowling Club. The night incorporated presentations of certificates and awards received over the past 12 months.

John, Ann & Shane presented gifts to employees with 5, 10 & 15 years of service to the company.

5 Years of service were presented to Reilly Sanders, Dion Morris & Aaron Schneider.

10 Year recipients were Billy McDonald & Dylan Jenkin.

15 Years of service was Paul Croser & Bob Jones.

John & Ann also welcomed new employees and their partners to the company and new babies over the past 12 months.

John spoke of company highlights of the year, a couple being: new shed

extension, Jenkin Racing Team success & purchase of new callout vehicle.

Paul Diment gave a report of the spare Parts Department, while Shane Neale discussed some highlights in the Service Department over the past year.

Jaime & Dylan presented traineeship certificates to Tyler Tomko for Certificate 3 in Automotive Sales—Part Interpreting & Zoey McCarthy successfully completed Certificate 3 in Business.

Employee of the Year winners were Henry Graetz from the workshop—for his success at training in particular 2012 Kenworth Technician of the Year & Rosalyn Farina from the office for her hard work in controlling debtors & creditors.

A enjoyable night was had by all & it was great to see everyone dressed up in formal attire (a change from the normal greasy overalls!)

Staff News

NEW STAFF
Anika, Greg & Bec. Absent—Adam

Greg Owen worked casual before commencing employment in April, Greg will be working in the trailer department & under going an apprenticeship as a trailer technician.

Bec Jones started in May in the position of Admin/Finance Officer. Bec comes highly qualified with a background in accounting. She will take over from Jaime when she takes Maternity leave in October. Bec's email address is: bec@ttbt.com.au.

We welcomed Adam Hameister in June from a trailer repair establishment in Adelaide. He will working in the trailer department & also undergoing some training to assist in other areas in the workshop.

Anika Johannsen started in July and will be in a service clerk roll for 2 months and then will be taking over from Narelle

while on maternity leave, taking on the position of Spare Parts Clerk. Anika's email address is: anika@ttbt.com.au.

Stork News

Congratulations to Travis Fisher & Amy Owen who have welcomed their second son

Drazik John Fisher

8th July 2012

As previously mentioned Jaime & Clint Virgin are expecting their second child in October, Jaime will be taking some maternity leave from this point.

Narelle & Aaron Schneider are also expecting their second child in November, Narelle will be on maternity leave for 12 months.

Dylan & Michelle Jenkin are also expecting a little bundle in December, which will be their first child.

Supercharge Battery Warranty

Supercharge warrants its batteries against defects due to faulty manufacturing for the following periods commencing from the date of purchase:

- MF50—36 Months
- MF52—36 Months
- MF95D31L—12 Months
(when fitted on a truck)
- MF95D31R—12 Months
(when fitted on a truck)
- MF31-930—12 Months
- MF31-930—12 Months
- N120P—12 Months
- N25—12 Months
- D70Z—12 Months

(Batteries stocked at Tatiara Truck & Trailers)

Proof of purchase is needed to claim under this warranty. You must return the battery, with proof of purchase, to any Supercharge reseller in person or freight pre-paid by you.

If Supercharge (itself or through its reseller) finds on examination that the battery is defective due to faulty manufacturing and is within the specified warranty period, then the battery will be replaced with an equivalent battery. The warranty period is not renewed or extended as a result of this replacement.

The battery will not be covered by this warranty if:

- it has been subjected to overcharging, undercharging, abuse, physical damage, a faulty vehicle charging system, neglect (sulphation), a long period of storage or installation without reconditioning, failure to

maintain acid levels (for accessible types), tampered markings or broken or removed vent plugs;

- it is discharged;
 - it has been topped up with any liquid other than distilled water;
 - damage caused by acid spillage due to improper topping up causing overflow (applies to accessible batteries);
 - it has been repaired or modified by a third party without Supercharge's consent;
 - the failure is caused by faulty terminals;
 - you have installed a battery that has a lower capacity than is originally specified by the manufacturer of the equipment in which the battery has been used;
 - the battery is damaged because of an explosion due to faulty connection (loose or reversed connection, frayed cables) or damage due to improper mounting or misapplication such as through the use of a deep cycle battery in the wrong application and vice-versa; or
 - the defects are as a result of normal wear and tear.
- This warranty does not cover the cost of labour for removal of the battery from the vehicle, or for the replacement of the battery into the vehicle, without Supercharge's prior written approval.

FLYWHEEL FACER

We have a flywheel facer available in our workshop, which can machine all types of flywheels.

Contact the service department to enquire.

Onsite Kenworth Training

During July we had Jason Jones from Kenworth here to conduct training on Air and Brake Systems and Electronic Brake Safety Systems. Normally our staff would have to travel to Adelaide or Melbourne for this training but we have now been offered training here if we can supply enough numbers to fill the course. This is a big tick for our company as this is a first for a sub dealer in the Kenworth dealer network. Normally training is only conducted in the major cities. Congratulations to Shane & Jaime for organizing this and also congratulations to all of our Technicians who completed the courses at high standards. Thank you also to Kenworth and Jason for giving us this opportunity.

Back: Billy McDonald, Aiden Mullen, Russell Twigden & Henry Graetz.

Front: Daryl Fisher, Reilly Sanders & Jason Jones.

Order/Bank Cheque & Bank Deposit.

You can find our store at: <http://stores.ebay.com.au/Tatiara-Truck-and-Trailers>

Please take a moment to have a browse and find a bargain.

The Carbon Tax

How the Carbon Tax will affect you:

A price on carbon will affect you by the price of refrigerant gas rising. The carbon tax when purchasing R134a from 1st July will increase substantially per kilogram. As we have stocked up on gas before the price increase this price increase may not need to be passed on till towards the end of the year.

This will make us more determined to recycle refrigerant, and ensure we are leak testing every cylinder, hose, and manifold with a top quality leak detector.

Kenworth Windscreen Decals

They're Back!

Kenworth have re-introduced the popular Kenworth Electrostatic Windscreen Decals.

They are available in a variety of size to suit all windscreens from Cabover to Traditional models. They come in a choice of Red/White or Black/Gold, with or without the Kenworth logo.
