Ryco's new Multi Flow Fuel Water Separator Filter suits all diesel engines using Davco/Fuel Pro® 382 systems.

The filter's multi-flow technology allows one filter to replace any 7, 10, 25 or 50 micron filter taking the guess work out of filter selection. Designed specifically for the harsh Australia operating conditions, the filter achieves a class-leading water separation of 98.4%.

Suits a large number of trucks, including Kenworth, Volvo, Mack, International and Iveco. Suitable also for off-road equipment fitted with Caterpillar, Cummins, Komatsu, John Deere, Hitachi and Volvo engines.
